Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims ~~194, 197~~ ^{and 199-208} are drawn to a method for treating pain in a mammal with the administering of a capsaicin receptor antagonist that is not a capsaicin analogue, classified in class 514, subclass 284.
- II. Claims 209-212 are drawn to a method for treating urinary incontinence in a mammal with a capsaicin receptor antagonist that is not a capsaicin analogue, classified in class 514, subclass 284.
- III. Claims 213-216 are drawn to a method for treating itching in a mammal with a capsaicin receptor antagonist that is not a capsaicin analogue, classified in class 514, subclass 284.

The three inventions are independent and distinct, each from the other as they have a separate status in the art as shown by their different and separate subject matter for inventive effort. Further, a reference, which anticipates any one of the above inventions, would neither anticipate nor make obvious of the other inventions. Each such invention is capable of supporting its own patent. For these reasons, the restriction requirement is proper.

To be complete, applicants' response must include a provisional election even though the requirement may be traverse.

Art Unit: 1614

If the applicants elect Group I, they must also show the difference between claims 186, 187, 199 and 200 versus claims 201-208 for treating pain caused by different condition. Or the applicants can simply further elect between the two "pain" groupings.
